

Master Financial Summary

Audit Defense Matrix

A consolidated overview of active financial data streams (QuickBooks, RBC, Coinbase).

1. QuickBooks Performance

Source: *CompanyOverview.pdf, P&L Docs*

- 2023 Fiscal Year:
 - Gross Income: \$156,037.07
 - Net Profit: \$49,388.28
- 2024 Fiscal Year:
 - Total Taxable Sales: \$61,159.81
 - Net Profit: \$34,308.00

1. QuickBooks Performance (Cont.)

- 2025 Projected (Filing):
 - Estimated Net Profit: -\$10,682.00 (Operating Loss)
 - Non-Capital Loss Carry-Back: -\$24,836.00

Audit Risk Profile: Filing a \$24k loss carry-back immediately adjacent to an outstanding \$40k arbitrary CRA payroll assessment creates a high-risk profile for automated review.

2. RBC Bank Statement Analysis

Source: *RBC_Transactions_2025_RAW.csv*

- **E-Transfers:** Extremely high volume. Must be cleanly separated into Owner's Draw vs. Subcontractor Payments.
- **Intuit Payments:** Recurring subscription/payment fees.
- **Operational Expenses:** Sherwin Williams, Esso, Shell, Home Depot.
- **NSF Activity:** High frequency of Non-Sufficient Funds (\$45 fee) and Overdraft fees indicating extreme cash-flow volatility.

3. Coinbase Crypto Transactions

Source: *Coinbase_Transactions_2025_12.pdf*

- **Volume:** Dozens of transactions ranging from \$79 to \$2,970 each.
- **Velocity:** Extremely high velocity of funds moving between RBC and Coinbase.
- **Reconciliation Requirement:** Every withdrawal from Coinbase deposited into RBC MUST be documented as capital gains, return of capital, or business revenue.

Actionable Insights & Next Steps

1. **Nullify the \$40k Payroll Assessment:** Ensure closure confirmation is submitted via My Business Account.
2. **Reconcile Crypto vs. Fiat:** Intermingling of Coinbase transfers with business material expenses must be strictly coded in QuickBooks.
3. **NETFILE Transmission:** Complete the 2025 T1 return via TurboTax to formally trigger the non-capital loss carry-back.
